

Cancer doesn't stop for Covid

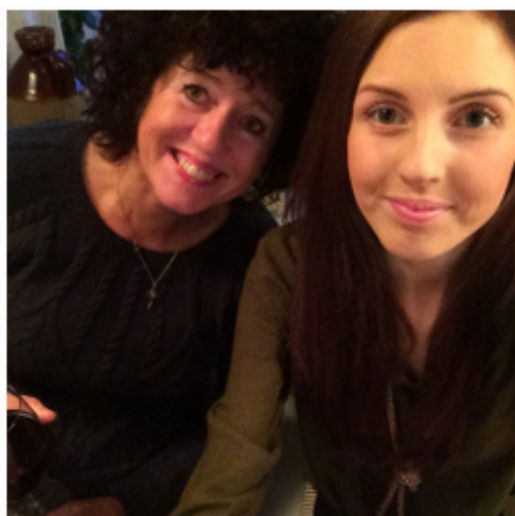

Jayne's 20:20 challenge for GIST Cancer UK & PAWS-GIST, the grand finale...

16.72 miles for the last two rides makes my **20-day total 185.76 miles!** Which although it didn't get me back home from Kensington, is the equivalent of cycling from home (*outskirts of Bristol*) to Canterbury, Sheffield or Manchester and all without a puncture, which is pretty amazing with all the hedge cutting that's been going on. Only 2 lbs lost though ☹️... so the penalty is a donation.

Thank you: **Angela, Sarah, Paul, Anonymous, Pat & Stewart.** In this final week you increased my sponsorship to **£1,395**, almost three times the original target!

To all who have backed this challenge; my family, friends, colleagues, neighbours, well-wishers, everyone in my community and network, you are all wonderful generous people and your support makes a massive difference to what we are able to achieve for GIST cancer patients. Thankyou x

Love Jayne, in memory of my darling girl, Eve x
